

Department of Chemistry Accelerated Master's Application

Submit this application and your CV by email to gradadm@chem.queensu.ca. If you are applying for a May start, submit by April 15. If you are applying for a September start, submit by July 15. Submit as early as possible.

Student Name

Student Number

Queen's Email

Citizenship, Residency, or Visa Status

Current Degree Program and Plan
(example: Chemistry Major)

Requested Start Month

Requested Start Year

List the research supervisor(s) you are interested in working with. You should contact potential supervisors to express your interest in joining their research groups.

Note that the number of students admitted to the Accelerated MSc depends on the funding available. If you are not selected, you can still apply for our regular MSc program. Students who are accepted into the Accelerated Combined BScH/MSc program still need to apply for admission to the MSc program towards the end of their BScH degree using the SGSPA application portal, but graduate courses taken during the BScH will be counted towards the MSc course requirements.
