Chemistry

From Discovery to Impact: Commercializing Your Research

Queen's University | RESEARCH AND INNOVATION Commercialization and Ventures

Could your research have impact beyond the university?

Join Queen's Commercialization and Ventures to explore how your research could move from discovery toward the market. We'll discuss intellectual property protection, industry partnerships, licensing, venture creation, and how our team can help you navigate the commercialization journey.

Bring your ideas. Bring your questions. Let's explore what's possible.

Open to faculty, postdocs and graduate students at all stages of the commercialization journey.
